

Hassan Saeed Almarri

COMPUTER SCIENCE STUDENT

Dubai, UAE | +971556555858 | hassan.almarri10@gmail.com

Professional Summary

Computer Science student at the American University of Sharjah with experience in full-stack development, databases, systems programming, and foundational cybersecurity. Completed an internship within TDRA's aeCERT department, gaining exposure to cybersecurity functions, practical training, professional workshops, and cross-department collaboration. Interested in developing a career in cybersecurity and digital technology.

Education

American University of Sharjah, Bachelor of Science in Computer Science

Expected Graduation: Spring 2027

Started: Fall 2023

Skills

Technical Skills

- Programming Languages: C, C++, Java, JavaScript, Python, HTML, CSS, SQL, Assembly
- Other Technical Tools: MATLAB, Google Collab
- Microsoft Office: Word, Excel, PowerPoint
- Other Tools: Canva

Professional Skills

- Problem-solving and attention to detail
- Research and documentation
- Communication and presentation
- Adaptability and time management
- Teamwork and collaboration

Projects

Budget Friend – Full-Stack Personal Finance Web Application

- Developed a full-stack personal finance web application for tracking income, expenses, spending categories, and financial goals.
- Built using HTML, CSS, and JavaScript on the frontend, and Java with MySQL on the backend.
- Supported features such as user registration, login, transaction management, monthly summaries, trends, and financial goal tracking.

Priority-Based Producer-Consumer System

- Implemented a multithreaded producer-consumer system in C using POSIX threads, semaphores, and mutex locks.
- Worked on priority handling and buffer insertion and removal functions for urgent and normal queues.
- Built synchronization logic that enforced priority consumption while preventing race conditions and buffer errors.

Experience

UAE National Service

Sep 2022 – Aug 2023

- Completed UAE National Service in a disciplined and highly structured team environment.
- Worked under pressure while following procedures, protocols, and instructions with responsibility and consistency.
- Developed teamwork, synchronization, punctuality, adaptability, and physical endurance in demanding conditions.

TDRA aeCERT Intern

June 2026 – Aug 2026

- Gained exposure to aeCERT functions, including security operations, incident response, digital forensics, and security assessment.
- Attended workshops and external Huawei training covering AI, cloud technologies, telecommunications infrastructure, cybersecurity, communication, and workplace development.
- Conducted research on cybersecurity trends and supported documentation, awareness activities, and general security-team tasks.
